

# Reading List 2026

The books I'm recommending this year — annotated.

## **The War of Art — Steven Pressfield**

Resistance is the real enemy. Read it once a year.

## **Show Your Work — Austin Kleon**

Working in public is a career strategy, not vanity.

## **The Almanack of Naval Ravikant**

Leverage, judgement, and the math of getting free.

## **Shoe Dog — Phil Knight**

The most honest founder memoir on the shelf.

## **Things Hidden Since the Foundation of the World — René Girard**

If you want to understand why people copy each other.
